

BASIC FRAMED SCREEN

Kingpins framed screen is for you who like to avoid the risk of waves on the screen. Framed screens is the only way to have a screen guaranteed free from waves. The screen is mounted to the wall. The elastic screenfabric is made of vinyl and is to be stretched out in the frame. The frame is made of black painted aluminum.

SCREEN CASSETTE / COLOUR

The screen cassette is made of aluminium painted dull black.

SCREEN FABRIC / GAIN

The screen fabric is dull white and made of vinyl. The fabric is elastic and stretched out between the frames. This provides a surface absolutely free from waves. The gain value is 1,0.

BLACK BORDERS

The picture area is surrounded by the 8 cm aluminium cassette painted black.
